## 300 Zatacek Gustava Havla Horice Czech republic

Posted by wusa czech republic - 2008/01/29 23:24

Hi guys, I want to introduce You the best road race in Continent. Horice circuit - we say little TT - is very difficult. Lenght 5150 m, 15 curves on right, 11 curves on left, vertical distance 90 m.

Some information about race :

We started to race in 1961, this year it will be 46th aniversary. Name "300 curves" this race got in past because of for example class 250 ccm raced 16 laps (26 curves per lap, so 26 times 16 is more than 300 - is it clear?)

There started more than 1000 riders from Czech, Slovakia, Slovenia, Germany, Austria, Finnland, Sweden, Danemark, Norge, Italy, Belgium, Poland, Bulgaria, Hungary, Switzerland etc. From Ireland there started I think only one rider - Tony Carey (80 years).

Race classes : GP125 + GP250, 125 sportproduction, supermono, open 600 (supersport, superstock600 and open 1000 (superbikes, superstock1000)

Besides "fast" race we have race for classics. This race belong to European classic cup and start three weeks after.

There are some videos from Horice

Are you interested in taking a look at what racing on the mainland of Europe is like? Comparing your racing skills with Czech riders? How about getting a start in Horice? If you have a valid international racing license, you can race at only one of Czech most demanding real road racing circuits. Over the last forty years, lots of foreign riders competed in our event.

For irish riders is entry free

There is photo from satellite. You can see circuit of 300 Zatacek. When you extend it you can see racing motorbikes on track. The photo was probably taking when were races in Horice (yellow line on roads number 300 and 501 and white short one)

Can you give us any start times for practice and racing, and any other info for visitors, the AMKhorice website forum does not mean much to English only speakers.

Click on page two in this thread. There you have info about times for practice and race. Some times can be changed because for practice is entered more bikes than is possible. But no big modifications.

Info for visitors - road is closed about one hour before practice and first warm up before race. Places for visitors are determine, kiosks with food and drink are round all the track, toilets as well.

Half of track is in the town (there are pubs and markets) and second half is in open area (forrest). Ticket you can buy round all the track, you can visite paddock.

Wheather will be good - forecast says sunny maybe cloudy, 20 - 25 degrees (in the shade) so you need sunglasses and shorts;)

Where are you from? How many people is in your group? If you need more info you will write me PM.

### REPORT FROM 46th FUCHS OIL 300 ZATACEK GUSTAVA HAVLA HORICE

Last weekend we received more than 300 riders from five european countries who started in only one real road racing in Czech republic.

On Saturday were practises of all classes. We could see three classes of classics and five classes of fast bikes. The weather was fantastic there were 28 degrees blue sky. Many road racing fans from Czech republic, Germany, Poland and Northern Ireland could see battles on our great track.

After twenty years we had chance to see rider from Ireland. This year we had first irish matador in Horice after many and many years. Victor Gilmore and his TLindsay racing team started in two classes – open 600cc and open over 600cc. Vic has never been in Horice so all czech fans was inquiring how succesfull he will be. In first practise he had to learn our difficult track because he went only twice on the track on Friday evening by his van.

Vic started in both classes on his yamaha R6. His improving was to see in every laps. Lap after lap he was faster and faster. I was walking around the track to I show it irish road racing fans who visited race this year. All czech fans was very surprised how fast Victor is. In top ten of open 600cc he was the second best newcomer (first was Goetschi) and behind him finished many riders who know this track from the past.

There is practise result of top ten open 600cc

1. Jiri Broz CZE KAWASAKI 2:23,806
2. Michal Dokoupil CZE HONDA 2:24,690
3. Jonnathan Goetschi FRA YAMAHA 2:27,067
4. Uwe Reichmann GER SUZUKI 2:27,778
5. Victor Gilmore GBR YAMAHA 2:28,339
6. Petr Cizek CZE HONDA 2:28,626
7. Andy Brandt GER HONDA 2:28,851
8. Steve Mizera GER YAMAHA 2:29,356
9. Vita Bican CZE YAMAHA 2:29,492
10. Stefan Holz GER HONDA 2:29,499

---

There is practise result of top ten open over 600cc :

1. Jiri Drazdak CZE YAMAHA 2:21,017
2. Vita Bican CZE HONDA 2:23,211
3. Marek Cerveny CZE HONDA 2:23,666
4. Michal Dokoupil CZE SUZUKI 2:23,815
5. Jonnathan Goetschi FRA YAMAHA 2:23,980
6. Jiri Braoz CZE KAWASAKI 2:24,566
7. Stefan HOLZ GER KAWASAKI 2:25,121
8. Petr Reznicek CZE YAMAHA 2:26,011
9. Victor Gilmore GBR YAMAHA 2:27,680
10. Premek Glinz CZE SUZUKI 2:28,203

On Saturday weather was dramatically changin. Cloudy and rainy. Not rainy but thea cats and dog felt down all the day. It was the worst weather in last 20 years. Everywhere was only water and mud.

In the first corner after start was Vic on fourth place. Standing after first lap was fantastic. First rode czech rider Michal Dokoupil and on second place only four sec behind him was riding Victor Gilmore ! People was shocked because the first two riders were very very fast. Second lap – the same situation. But in third lap was red flag because of two crashes. On the track was too much messy so organizers had to tidy. Restart race wasn't to succesfull for Vic he was on fifth place and in half of the first lap (after restart) he got highsider and didn't finished this race.

I think the first part of race looked great for Vic and he could be on podium maybe on first place !

Races open over 600cc and supermono were canceled because of bad weather.

There are results all classes which finished one's races :

Sportproduction 125cc

1. Marek Zima CZE
2. Radek Lamich CZE

Just got back last night, I went to @horice to watch the raing and then had a weeks holiday. Hopefully I will be back next year.

We flew to Prague, stayed for a few days and then up to Horice, and hour and half on the direct bus, £3. We stayed in the Hotel Královský Dvur, £40 a night bed and breakfast. Right in the middle of the town square and was only about 200 yards from the circuit, plenty of restaurants at good prices about the place, but if you like shopping beware, it is like most of central europe with the shops closing at 11:00 am on the Saturday and all day Sunday, but never mind I knew that before I went and anyhow I wasn't there for the shopping.

On the Saturday morning of the practice while having my breakfast I watched the people walking past the hotel, cool boxes in one hand and sun cream in the other, the sun was splitting the trees and I thought I was at Skerries. When I walked up to the circuit I knew I certainly wasn't, the width of the roads here make the Horice circuit look like a motorway, with the only white lines being a zebra crossing and the camber running the right way on all the corners. Having bought my programme and entrance for the weekend, 96 page programme with plenty of photos etc. £2.50 and entrance for the weekend £5, I walked completely around the course, I must have viewed the practice from twenty or thirty different places, I couldn't make my mind up where to watch on the Sunday, would I have to keep under the trees to keep the sun off me or would I be able to stand in the open, but what was to come on the Saturday night changed that, there were a few thunder claps, not unusual with the hot weather and I thought that would be it, but the rain started and continued all night and when I was having breakfast the people walking to the course looked like they were going to Dundrod, waterproofs, umbrellas, themos flasks etc. But the rain didn't put them of me off, it was heavier than the Ulster last year, we stood for

---

about four hours waiting for the first bikes to come past. Not speaking Czech I didn't know what was really happening from the speakers that completely covered the circuit, but was told by locals that it was being delayed and hoping for better weather, this never arrived.

The club must be congratulated for running the race in those conditions, the riders for going out in it and the marshalls for keeping the water of the circuit, the spectators are as determined as here, men, women and children standing their ground for hours in the pouring rain, soaked to the skin but still smiling. When I got back to the hotel I had a shower, I was drier standing the shower than I was at the side of the road.

The race seems to a family day out as it is here, with everyone from babies in pushchairs to the very old, not as in England where it seems to be nearly men only. There are beer and food vans and tents all around the circuit but no drunks. I would really recommend anyone to go next year, or later to watch the Horice TT, pity I didn't get a chance to meet anyone of the other forum members but hopefully next year. Best wishes to VG, he was going well in practice and fourth when he past me on the first lap of the race, the corner he came off would be about the slowest on the circuit. The right hander at the top of the hill coming into the town looks really scary, maybe not when if you are riding, the noise and view coming through the trees towards the start/finish would put Sams tunnel to shame, and the twisty bits through the forest to Dachovey, awesome. I hope someone will be in touch with some of the riders to bring them over here.

21st and 22nd of June we had races for classics - 17th CZECH TouristTrophy

To Horice came more than 340 riders from all Europe and New Zealand.  
For classics were prepared 14 categories solo and two categories sidecars.  
The race visited many fans from UK. Specially thanks for Grunt and Liz from Wales.

On Saturday was fantastic weather, cloudy no rain and 26 degrees. Atmosphere in town round the circuit or in paddock was fantastic like every year. From 9 o'clock to 18 we could follow fantastic old bikes and ability of riders.

On Sunday was weather more warm than on Saturday. Blue sky temperature about 29 degrees. First a few races was great. At 12 o'clock started sidecars their race for six laps. Two laps to go there was big accident. Sidecar nr. 21 had hard crash. It happened in corner where the sidecar was only 70 km/h fast. Mate of rider was quickly moved and the bike went in two wheels to ditch. Then followed bump to tree....

Czech rider Iija Zachoval (57) and his daughter (27) were killed.... All races were cancelled.  
It is big tragedy for all Zachoval family and for all fans in Czech republic who loves road races

EST VAŠÍ PAMÁTCE, NIKDY NEZAPOMENEME !  
R.I.P.

Just a few thoughts on our visit to Horice for the Czech TT ....

Most importantly our deepest condolences to family and friends of the sidecar crew killed on the Sunday ... the face of the Czech gentleman we had been standing next to watching the race when he told us what had happened and then said "He was my friend" will be haunting me for some time to come.

Anyway, and thanks largely to our new friend Pavel, we had an absolutely fantastic weekend. Despite the racing being stopped after the accident and before the larger and newer stuff had a chance to race the Saturday practice sessions provided ample demonstrations of a thoroughly eclectic selection of classics, quite a lot of which I had never heard let alone seen. The 250 OHC CZs, of which there were several, took my eye .... if ever there was a reduced size Manx ....! And the Suzuki rotary took "noise of the day" if you ask me. Talking of noise the scrutineers at a UK classic meet would have several fits ... at last, classics without "nanny state" silencers.

The beer goes without saying for anyone who's been to Czech before although I was surprised to find no price increase at the (many) temporary bars dotted around the circuit. We caused a few raised eyebrows when we asked for coffee at one at half nine on Saturday morning ... everyone else was drinking beer.

As I said, a fantastic weekend which really set us up for the rest of our little tour around Czech and I can't recommend a visit enough. And thanks again to Pavel and his family for making us so welcome. I only wish Aberdare Park could provide enough of an attraction to tempt him to Wales!

Cheers everyone

Grunt

Good bye next year ;) in Horice

In this days I started to discuss with irish matadors who I met in Skerries about possibility to start in Horice race next year. I told with many of them and I'm persuade that next year we will see in Horice small irish road race championship.

This year winner in 600cc Michal Dokoupil (CZE) is thinking about start on Isle of Man TT next year. If he come to island he will be first czech rider after 17 years on isle.

I hope the organisers make sure that the date of ZGH300 will not be the same as the NW200 or the IOM TT so that Irish riders and spectators will not have a conflict of interests.

I hope in that as well. I'm in contact with organisers and all information (dates yours races, interest of riders and spectators....) I give them.
