
Calling Internet Explorer 6.x users

Posted by admin - 2008/04/19 07:19

Do you use version 6 of Microsoft's internet explorer? If so, can you let us know if you get drop down menus from the News, Articles and Fanzone menus at the top of the screen. When you hover your mouse over the words a dropdown menu should appear. E.g., 'Videos', 'Images' and 'Quotes' below 'Fanzone'.

We understand there has been a technical problem in that IE6 users could not see the menu items. That's a big problem considering most of you use IE6 and most of the site is behind the dropdown menu items!

Thanks,

Admin

OK, thanks for the feedback. We will look into it. Should have it fixed by next weekend.

In the meantime you can get to the video and image sections by the links on the left hand side of the homepage.

IE 6 users should now be able to access all the menus. We still have a little bit of work to do to get the images working but we are not far away.
