Personally, i thinks its a pity, Toby Julian and Randy are great, Suzi might be better eye candy though, then you have peter collins on RTE, defered coverage cos of a Gaa match and no 125's and 250's etc. etc. :unsure:

Yea have to agree with the coverage on RTE...

Pure shit

They will only show The big bikes and only when they have no football to show...

Bloody shame they would show 2 dogs kicking around a ball on a pitch but some of the greatest bike racing in the world on there door step and never a mention of it...

Taken from BBC

BBC Sport will have exclusive rights to show MotoGP in the United Kingdom for the next five years after signing an extension to its current contract.

The deal until 2013 includes the rights to show all the races - 125cc, 250cc and MotoGP, plus qualifying sessions.

All MotoGP races will be shown live on BBC TV with the 125 and 250 races, and qualifying sessions shown live on interactive TV and online.

As well as added interactive coverage MotoGP races will be on BBC iPlayer.

All is not lost, least there's no commercial breaks
